INTERNSHIP & PROJECTS:

Internship Studio (June 2024):

- Designed and executed data cleaning, manipulation, and visualization workflows using Python libraries (Pandas, NumPy, Matplotlib, Seaborn).
- Conducted Exploratory Data Analysis (EDA) to extract actionable insights and identified patterns for effective decision-making.
- **Link:** [Project Repository](#)

Movie Portal Project (Frontend):

- Developed a responsive movie portal using HTML, CSS, and Bootstrap with an intuitive and visually appealing interface.
- Implemented dynamic features like a carousel and interactive movie cards with hover effects.

- Optimized layout for cross-device compatibility to ensure seamless functionality and consistent performance.
- **Link:** [Movie website frontend](#)

Power BI Mobile Sales Dashboard Project:

- Developed an interactive Power BI dashboard to analyse mobile sales data, visualizing 769.2M total sales and 19K quantities sold across dimensions like time, city, and brand.
- Identified trends and insights on payment methods, ratings, and year-over-year performance comparisons.
- Completed this as a final project after a 30-day Power BI masterclass by Satish Dhawale Sir, showcasing skills in data visualization and DAX calculations.
